CENTRALIZED SECURITY MANAGEMENT, WITH MILESTONE XPROTECT®

- Interoperability at every level, avoiding the inefficiencies of standalone video and communication systems.
- Best-in-class partnership combines Zenitel's crystal-clear audio with Milestone’s flexible, open-platform video management.
- Multiple audio integration options, based on customer needs, to scale over time as security requirements evolve.
- Intelligent Communication ensures that users can hear, be heard, and be understood in any situation, providing a voice to Milestone’s Video Management System.
EXPLORING ADDING AUDIO TO YOUR SECURITY MIX

Intelligent Communication is driven by Intelligent Integration. With the open XProtect® video management platform, audio becomes intelligent by seamlessly integrating into your security business application.

- **SUPERVISE AND MONITOR**: See and verify the status of each intercom device.
- **VERIFY VISITOR IDENTITY**: Provide dual identity verification through both visual and audio communication.
- **TAKE A 360-DEGREE VIEW**: Improve situational awareness by linking devices together, creating a more complete picture of events.
- **COMMUNICAATE ACROSS AUDIO SYSTEMS**: Broadcast live or pre-recorded messages through all audio systems, including horns, intercom, radio, and phone systems.
- **RECORD AND PLAYBACK VIDEO**: Import video stream from Turbine Video Door Stations through ONVIF to enhance security and monitoring.
- **CALL WITH A CLICK**: Initiate intercom calls to any device from the System Monitor dashboard.

ADVANTAGES OF INTEGRATIONS WITH XPROTECT®:

- Automate business and security processes by linking common security events through XProtect®.
- Adapt systems to meet unique processes and procedural needs through customizable, integrated functionality.
- Improve operational efficiency, measurable data reporting, and accountability, extending the value of the security system for the organization.
- Provide complete situational awareness via simultaneous live audio and video, for better decision making and faster response times.

VINGTOR-STENTOFON COMMUNICATION PLATFORMS:

**IC-EDGE** This serverless communication system delivers seamless integration, unrivaled audio quality and ease of use, right out of the box.

**ICX-AlphaCom** Our scalable, server-based platform enables advanced communication management, integrated with security applications.

### XPROTECT® INTEGRATION OPTIONS

- **XProtect® AWS Cloud**
- **XProtect® VMS Server**
- **XProtect® Smart Client**
- **Intercom Server**

**IP NETWORK**

- Video Door Stations
- Industrial Stations
- Intercom Stations
- IP Loudspeakers
- Desktop Stations
- Emergency Stanchions
